

Loan Essay – Perodua Myvi

I am applying for a car loan to purchase a Perodua Myvi as my primary mode of transportation to work.

At the moment, I rely on public transport and occasional e-hailing services, which can be unpredictable.

I chose the Myvi because it is affordable, fuel-efficient, and has a strong reputation for reliability and low maintenance.

I see this purchase as a practical, long-term investment to support my career growth and daily responsibilities.
